CHAPTER 1: INTRODUCTION	1
1.1: Aims	1
1.2: Overview of Experimental Design	1
1.3: Thesis Objectives and Outline	3
CHAPTER 2: TROPICAL DEFORESTATION: THE SCALE OF THE PROBLEM	7
2.1: Introduction	7
2.2: Tropical Forest Extent	8
2.3: The Rate of Conversion of Tropical Forests	11
<i>2.3.1: Difficulties in deriving rates of changes</i>	<i>11</i>
<i>2.3.2: The most authoritative studies</i>	<i>12</i>
2.4: The Causes and Processes of Tropical Deforestation	14
<i>2.4.1: Forest conversion in developing world</i>	<i>15</i>
<i>2.4.2: The causes of deforestation in Southeast Asia</i>	<i>18</i>
2.5: Discussion and Conclusions	22
CHAPTER 3: MODELLING THE EFFECTS OF TROPICAL DEFORESTATION ON CLIMATE: BACKGROUND	25
3.1: Introduction	25
3.2: Tropical Deforestation and Climatic Change	25
<i>3.2.1: The role in the global carbon cycle</i>	<i>25</i>
<i>3.2.2: Changes in land surface properties</i>	<i>26</i>
<i>3.2.3: The role in the hydrological cycle</i>	<i>27</i>
3.3: The Land Surface in the Climate System	28
<i>3.3.1: Surface-atmosphere interaction</i>	<i>28</i>
<i>3.3.2: Sensitivity of regional and global climate</i>	<i>29</i>
3.4: Parameterization of Land Surface Processes	32
3.5: Biophysically Based Models: An Overview	34

CHAPTER 4:	GENERAL CIRCULATION MODEL SIMULATIONS OF TROPICAL DEFORESTATION	38
4.1:	Introduction	38
4.2:	Modelling Tropical Deforestation: Overview of the Early Experiments	40
4.3:	General Circulation Model Simulations of Tropical Deforestation: A Historical Review	43
	4.3.1: <i>Features and perturbation</i>	44
	4.3.2: <i>Principal findings and discussion</i>	51
	4.3.2.1: <i>Impact of deforestation on local and regional climate</i>	51
	4.3.2.2: <i>Impact of deforestation on global climate</i>	53
4.4:	Improving Model Simulations of the Effects of Tropical Deforestation	54
4.5:	Summary	56
CHAPTER 5:	REGIONAL CLIMATE SENSITIVITY TO TROPICAL DEFORESTATION	58
5.1:	Introduction	58
5.2:	Control Climate Simulation	59
	5.2.1: <i>Seasonal cycle of regional vertical velocity</i>	62
	5.2.2: <i>Climate of Southeast Asia</i>	66
5.3:	Impacts of Deforestation over Southeast Asia: An Overview	75
	5.3.1: <i>Annually averaged climatic changes</i>	75
	5.3.2: <i>Seasonal variation of impacts of deforestation</i>	77
5.4:	Regional-Scale Circulation Impacts of Tropical Deforestation	80
	5.4.1: <i>Walker and Hadley circulation changes</i>	80
	5.4.2: <i>Southeast Asia-scale circulation changes</i>	88
	5.4.3: <i>Main findings</i>	94
5.5:	Summary	96
CHAPTER 6:	THE UNIFIED MODEL: HISTORICAL INTRODUCTION, BASIC NUMERICAL CONCEPT AND APPLICATIONS	98
6.1:	Introduction	105
6.2:	The History of the Unified Model	105
	6.2.1: <i>Background</i>	105

6.2.2:	<i>The introduction and development</i>	106
6.2.3:	<i>The unified consideration</i>	107
6.3:	Numerical Formulations	111
6.3.1:	<i>The primitive equations</i>	111
6.3.2:	<i>The Unified Model prediction schemes</i>	116
6.3.2.1:	<i>Horizontal resolution and discretization</i>	117
6.3.2.2:	<i>Vertical resolution and discretization</i>	120
6.3.2.3:	<i>Time differencing scheme</i>	121
6.4:	Parameterizations	122
6.4.1:	<i>Land surface model</i>	124
6.4.2:	<i>Boundary layer</i>	125
6.4.3:	<i>Radiation</i>	126
6.4.4:	<i>Large-scale cloud and precipitation</i>	127
6.4.5:	<i>Convection</i>	128
6.4.6:	<i>Gravity-wave drag</i>	129
6.4.7:	<i>Eddy diffusion</i>	129
6.4.8:	<i>Ancillary fields</i>	130
6.5:	Software System, Sub-Models and Model Coupling	131
6.5.1:	<i>Software implementation</i>	131
6.5.2:	<i>Sub-models and Coupling</i>	134
6.6:	The Use of the Unified Model	135
CHAPTER 7:	THE LAND SURFACE SCHEME OF THE UNIFIED MODEL AND RELATED CONSIDERATIONS	137
7.1:	Introduction	137
7.2:	Subsurface, Surface and Boundary Layer Processes	138
7.2.1:	<i>Sea-ice thermodynamics</i>	138
7.2.2:	<i>Soil thermodynamics</i>	139

7.2.3:	<i>Turbulent surface exchange and boundary layer mixing coefficients</i>	141
7.2.3.1:	<i>The surface fluxes of momentum, heat and moisture</i>	143
7.2.3.2:	<i>The bulk transfer coefficients for momentum, heat and moisture</i>	144
7.2.3.3:	<i>The treatment of the surface flux of moisture</i>	148
7.2.4:	<i>The surface and boundary layer equations and their implicit solution</i>	152
7.2.4.1:	<i>The surface temperature equation</i>	152
7.2.4.2:	<i>The equations for turbulent mixing of momentum, heat and moisture</i>	153
7.2.5:	<i>Adjustment of the surface evaporation and sublimation and the surface temperature increment</i>	154
7.2.6:	<i>Boundary layer cloud</i>	155
7.3:	Canopy and Land Surface Hydrology Processes	156
7.3.1:	<i>Snow processes at the land surface</i>	156
7.3.1.1:	<i>The sublimation/deposition of snow</i>	156
7.3.1.2:	<i>The accumulation of snowfall</i>	156
7.3.1.3:	<i>The melting of snow</i>	157
7.3.2:	<i>Canopy and surface hydrology</i>	157
7.3.2.1:	<i>Canopy interception and throughfall</i>	158
7.3.2.2:	<i>Surface hydrology</i>	161
7.3.2.3:	<i>Implementation in the UM</i>	164
7.4:	Soil Hydrology Scheme	165
7.4.1:	<i>Single layer scheme</i>	165
7.4.2:	<i>Multilayer scheme</i>	166
7.5:	Surface Albedo Specification	169
7.5.1:	<i>Open sea and sea-ice albedo</i>	169
7.5.2:	<i>Albedo of land points</i>	170
7.6:	Related Considerations	171
CHAPTER 8:	ENSEMBLE GCM SIMULATION OF SOUTH-EAST ASIAN DEFORESTATION: A DESCRIPTION OF THE EXPERIMENTAL DESIGN	172

8.1:	Introduction and Model Use	172
8.2:	Simulation Procedure	173
	8.2.1: <i>Model spin-up</i>	173
	8.2.2: <i>The ensemble approach</i>	176
8.3:	The Control and Perturbation Experiments	178
8.4:	Method of Diagnostic Analysis	189
	8.4.1: <i>Process analysis and large-scale dynamics</i>	189
	8.4.2: <i>The velocity potential</i>	190
	8.4.3: <i>The stream function</i>	191
CHAPTER 9:	THE IMPACTS OF SOUTHEAST ASIAN DEFORESTATION: (I) BASIC RESULTS FROM THE ENSEMBLE GCM SIMULATIONS	192
9.1:	Introduction	192
9.2:	Assessment of the Ensemble Control Simulation	193
	9.2.1: <i>Precipitation</i>	193
	9.2.2: <i>Surface temperature</i>	201
	9.2.3: <i>Sea level pressure and low-level winds</i>	202
	9.2.4: <i>Divergent winds and velocity potential</i>	203
	9.2.5: <i>Summary</i>	205
9.3:	Variability of the Ensemble Members	206
	9.3.1: <i>Standard deviation of vertical velocity</i>	206
	9.3.2: <i>Standard deviation of precipitation</i>	209
9.4:	Impacts of Southeast Asian Deforestation on Local and Regional Climates	210
	9.4.1: <i>Spatially averaged climatic change</i>	210
	9.4.2: <i>Spatial pattern of local to regional-scale changes</i>	218
9.5:	Causes of the Climatic Changes: Overview of the Processes	228
	9.5.1: <i>Changes in the surface net radiation</i>	228
	9.5.2: <i>Changes in the radiative energy budget</i>	230
	9.5.2.1: <i>Surface radiative balance</i>	230
	9.5.2.2: <i>Atmospheric radiative balance</i>	233
	9.5.3: <i>Changes of hydrological processes</i>	235

9.6: Conclusions	239
CHAPTER 10: THE IMPACTS OF SOUTHEAST ASIAN DEFORESTATION: (II) LARGE-SCALE CIRCULATION CHANGES	242
10.1: Introduction	242
10.2: Remote Impacts Caused by Southeast Asian Deforestation	243
10.2.1: <i>The Walker and Hadley circulation changes</i>	243
10.2.2: <i>Southeast Asian-scale circulation changes</i>	251
10.2.2.1: <i>Mean sea level pressure and vertical velocity</i>	251
10.2.2.2: <i>Low and upper level velocity potential</i>	257
10.2.2.3: <i>Middle level stream function</i>	262
10.3: The Role of Southeast Asian Vegetation in the Large-scale Circulation	266
10.3.1: <i>Tropical deforestation, net surface radiation and boundary layer entropy</i>	268
10.3.2: <i>Impacts on the dynamics of monsoon circulations</i>	272
10.4: The Change in Large-scale Atmospheric Circulation	285
10.4.1: <i>The mechanism relating Southeast Asian deforestation and the change in large-scale atmospheric circulation</i>	285
10.4.2: <i>The current analyses versus the hypotheses</i>	287
10.5: Conclusions	292
CHAPTER 11: CONCLUSIONS AND RECOMMENDATIONS	294
11.1: Major Findings	294
11.2: Recommendations for Future Study	298
11.3: Implications for Policy	300
REFERENCES	302
